CO-CREATION

FLEXIBILITY

CACEIS has implemented a **strategy to digitalise** its value chain to better serve clients. We leverage digital technology to improve the user experience, increase the efficiency and security of operations, and optimise product sales channels.

By developing **innovative and agile solutions** to raise service efficiency, CACEIS remains focused on digitalising the client journey, from account opening and contract signature through to measuring satisfaction by implementing our “Leading by Client Satisfaction” process.

The **OLIS** web portal is the central contact point for CACEIS services. It provides a clear overview of all fund activities in real time. OLIS is founded on data security and system stability, so our clients' data is in good hands. The OLIS Mobile apps (Funds and Sherpa) enable clients to access OLIS securely on mobile devices.

TEEPI is a digital platform with three modules designed to address fund distribution challenges:

- **TEEPI Market Place** to efficiently manage fund distribution and invest in a wide range of funds.
- **TEEPI Data Hub** to send out regulatory files.
- **TEEPI ETF** to access the primary ETF market.

CACEIS' OPEN FINANCE SOLUTION

Accessible via the OLIS client portal, the Connect Store provides access to the best fintech solutions on the market, in addition to the services already offered by CACEIS.

A wide range of Plug & Play services provided by partner companies selected for their recognised expertise in addressing clients' business challenges is available. Four solutions are already available: **FundGlobam** for fund distribution, **Clarity AI** for ESG analysis and reporting, **Osmoze** and **Sismo** for data analysis.

We aim to add around five new fintech partners each year.

DIGITAL ASSET FACTORY

CACEIS is extending its offer to the entire class of digital assets to support clients *via* blockchain technology.

By integrating the **Taurus** platform into our infrastructure, CACEIS' objective is to provide:

- secure custody of digital assets.
- digital asset issuance and tokenisation *via* blockchain.
- connectivity with 10+ blockchains.

CACEIS is therefore in a position to deliver all services to digital assets.

STRONG CORPORATE RESPONSIBILITY

COMMITMENT AND RESPONSIBILITY

CACEIS' ESG & Climate reporting offer: an innovative, easy-to-use digital solution

CACEIS offers a comprehensive range of services for asset managers and institutional investors to assess their exposure to ESG risks.

The service is divided into two parts: **risk monitoring**, to monitor changes in and exposure of portfolios to ESG risks; and **regulatory reporting**, to produce pre-configured reports (EET, SFDR, TCFD) to meet the requirements of the regulator and the market.

CACEIS believes that strong corporate social responsibility is a source of long-term growth, which includes a deep commitment to being a **reliable partner** for our clients by adding sustainable value.

CACEIS' ESG strategy reflects our commitment to **supporting the climate transition** by assisting clients in the implementation of their ESG regulatory obligations and assessing their portfolios for a more carbon-free world.

Concerned about our own social and environmental impacts, and aware of our duty to set an example, CACEIS **has been measuring its direct environmental footprint for many years** and implementing action plans to reduce it.

CACEIS' **code of conduct** reflects the high standards of responsibility and quality that govern our professional activities, and a determination to always act in the best interests of clients and stakeholders. It encourages our suppliers to adopt this virtuous approach.

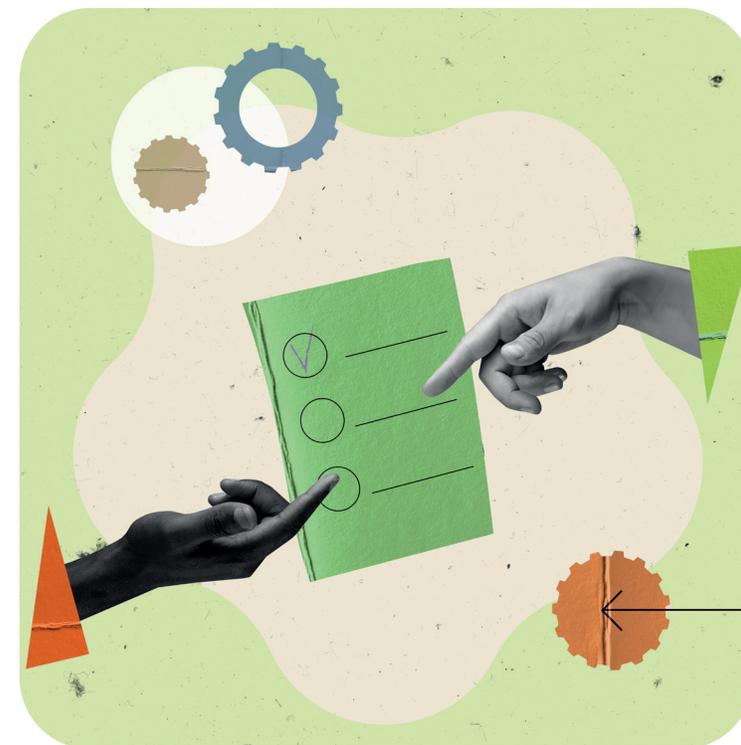

As a **responsible employer**, CACEIS has implemented a company policy aimed at helping employees to improve their skills. Voluntary programmes covering compliance, diversity, fairness and quality of life at work bolster the ethical awareness, commitment and motivation of the staff.

CACEIS has created a **Sustainability Centre**, a think tank that brings together CACEIS' employees who represent the business lines and are invested in sustainable development. This group meets regularly to reflect on how to improve its actions and services to clients.

CACEIS' THREE CSR PILLARS

- 1 **Supporting clients with confidence and security**
- 2 **Taking action to promote the energy and environmental transition**
- 3 **Being a responsible and committed employer**
