The OLIS web portal is the single entry point for CACEIS services. It provides a clear overview of all fund activities in real time. OLIS is grounded in data security and system stability, so client data is in good hands. The OLIS Mobile range (Funds, Shares, Sherpa and Agro) is an app that enables clients to access OLIS securely on mobile devices.

CONNECT STORE

Accessible through OLIS, the Connect Store provides access to a wide range of “plug & play” services provided by partner companies. CACEIS specifically pre-selects these companies for their recognised expertise in meeting its clients current and evolving needs.

TEEPI, THE FUNDS NETWORK

TEEPI is a multi-service digital platform comprising three modules designed to assist with fund distribution challenges.

- **TEEPI Market Place** offers management companies a tool to manage fund distribution and enables investors to send their orders directly to fund transfer agents.
- **TEEPI Data Hub** operates like a social network and is the preferred solution for fund industry operators for transferring regulatory files.
- **TEEPI ETF** is a digital solution designed specifically to give Authorised Participants access to the primary ETF market.
