CO-CREATION

FLEXIBILITY

ACEIS has implemented a **strategy to digitalise** its value chain to better serve clients. We leverage digital technology to improve the user experience, increase the efficiency and security of operations, and optimise product sales channels.

By developing **innovative and agile solutions** to raise service efficiency, CACEIS remains focused on digitalising the client journey, from account opening and contract signature through to measuring satisfaction by implementing our “Leading by Client Satisfaction” process.

L I S
Where people meet data

The **OLIS** web portal is the central contact point for CACEIS services. It provides a clear overview of all fund activities in real time. OLIS is founded on data security and system stability, so our clients' data is in good hands. The OLIS Mobile apps (Funds and Sherpa) enable clients to access OLIS securely on mobile devices.

TEEPI 
THE FUNDS NETWORK by CACEIS

TEEPI is a digital platform with three modules designed to address fund distribution challenges:

- **TEEPI Market Place** to efficiently manage fund distribution and invest in a wide range of funds.
- **TEEPI Data Hub** to send out regulatory files.
- **TEEPI ETF** to access the primary ETF market.

CACEIS' OPEN FINANCE SOLUTION

Accessible via the OLIS client portal, the Connect Store provides access to the best fintech solutions on the market, in addition to the services already offered by CACEIS.

A wide range of Plug & Play services provided by partner companies selected for their recognised expertise in addressing clients' business challenges is available. Six solutions are already available: **FundGlobam** for fund distribution, **Clarity AI** for ESG analysis and reporting, **Osmoze** and **Sismo** for data analysis, **AlphaOmega** for PRIIPs, **DRRT** for class actions.

We add around five new fintech partners each year.

DIGITAL ASSETS

CACEIS is authorised to provide crypto-asset services under the European Markets in Crypto-Assets (MiCA) regulation by France's financial regulator. The group has set up a dedicated Business Line focusing exclusively on digital assets to support clients looking to invest in digital assets within a highly secure environment.

Digital asset custody offer is fully integrated with CACEIS' IT systems, and built on the robust suite of digital platforms developed by Taurus for storing private keys and connects to the major Blockchains including Bitcoin, Ethereum, and Polygon. It also relies on Scorechain, Europe's premier compliance solution provider for the Blockchain ecosystem.

CACEIS is keen to be the benchmark asset servicing group in Europe for digital asset custody and tokenised funds units, fully playing its role as a trusted third party unit.

STRONG CORPORATE RESPONSIBILITY

COMMITMENT AND
RESPONSIBILITY

CACEIS' ESG & Climate reporting offer: an innovative, easy-to-use digital solution

CACEIS offers a comprehensive range of services for asset managers and institutional investors to assess their exposure to ESG risks.

The service is divided into two parts: **risk monitoring**, to monitor changes in and exposure of portfolios to ESG risks; and **regulatory reporting**, to produce pre-configured reports (EET, SFDR, TCFD) to meet the requirements of the regulator and the market.

C ACEIS believes that strong corporate social responsibility is a source of long-term growth, which includes a deep commitment to being a **reliable partner** for our clients by adding sustainable value.

CACEIS' ESG strategy reflects our commitment to **supporting the climate transition** by assisting clients in the implementation of their ESG regulatory obligations and assessing their portfolios for a more carbon-free world.

Concerned about our own social and environmental impacts, and aware of our duty to set an example, CACEIS **has been measuring its direct environmental footprint for many years** and implementing action plans to reduce it.

CACEIS' **code of conduct** reflects the high standards of responsibility and quality that govern our professional activities, and a determination to always act in the best interests of clients and stakeholders. It encourages our suppliers to adopt this virtuous approach.

As a **responsible employer**, CACEIS adheres to ethical and social principles. CACEIS is committed to promoting an inclusive work environment that cares for its employees, where everyone is recognised and valued, and where equal opportunity is a core principle. In this context, CACEIS implements policies that support the development of each employee's skills and offer a variety of career opportunities.

The **Sustainability Centre** is a committee dedicated to promoting CSR practices and fostering an ESG culture within the company. Its goal is to encourage the adoption of sustainable practices in our activities and to strengthen communication around responsible initiatives, with the aim of raising awareness and engaging all stakeholders.
